

IN THE SPECIFICATION:

On page 7, before the paragraph that begins “Other and further aspects”, please insert the following NEW paragraphs:

Other embodiments of the present invention are directed to an article of manufacture comprising a computer readable medium including instructions for performing methods disclosed herein.

An exemplary article of manufacture comprises a computer readable medium including instructions for: identifying at least one communication channel that is transmitting signals receivable by the mobile terminal; accessing a first communication channel that is transmitting at least one signal receivable by the mobile terminal; receiving first signals from the first communications channel; searching in the first signals for redirection information; selecting and accessing a second communication channel from a plurality of communication channels based on the redirection information, if the redirection information is received within a first period of time; and selecting and accessing a third communication channel if the redirection information is not received within the first period of time.

Another exemplary article of manufacture comprises a computer readable medium including instructions for: identifying at least one communication frequency that is transmitting signals receivable by the mobile terminal; accessing a first communication frequency that is transmitting at least one signal receivable by the mobile terminal; receiving first signals from the first communications frequency; searching in the first signals for redirection information; selecting and accessing a second communication frequency from a plurality of communication frequencies based on redirection information, if the redirection information is

received within a first period of time; and selecting and accessing a third communication frequency if the redirection information is not received within the first period of time.
